

LEARNING ANCIENT GREEK WITH XENOPHON

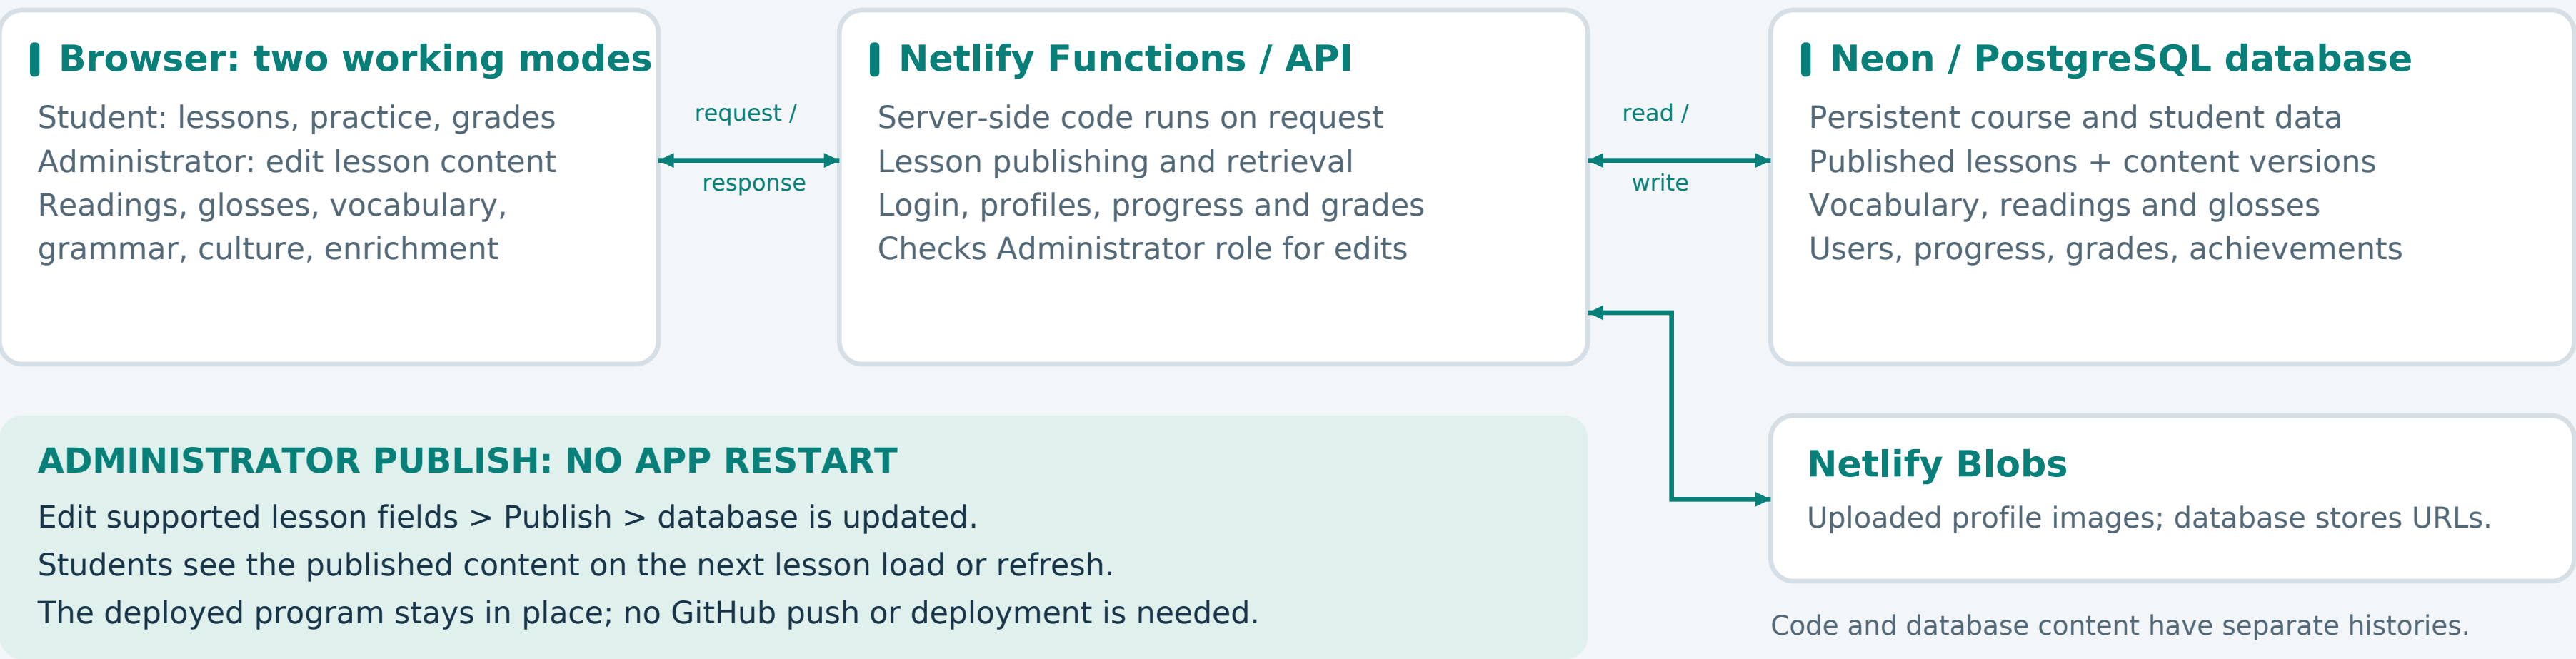

How the app is developed, published, and updated

Tom Alston | GREK 399 Independent Study | Faculty director: Dr. Mark Beck | Fall 2026

1 DEVELOP & PUBLISH THE SOFTWARE

2 USE THE APP & PUBLISH CONTENT CHANGES

WHY THIS WORKS The interface is deployed as software; editable lessons are loaded as data.

New features, layouts, and code changes require deployment. Database schema changes use separate SQL migrations.

Verified against repository main, commit fa1590d, 12 Sep 2026. Netlify account deployment-trigger settings were not inspected.

Sources: netlify.toml; db/README.md; lesson.js; netlify/functions/admin-lesson-content.mts and lesson-content.mts.
